

Adobe Tips: Photoshop

Add motion to an object by creating a selection around the edge and clicking filter > blur > motion blur.

Adobe Tips: Photoshop

To easily change the color of an object, use the color blend mode on the paintbrush tool. Select the object and paint over it with a large paintbrush to change the color while maintaining the texture.

A photograph of a desk setup with two computer monitors. The left monitor displays a web browser with various images, and the right monitor displays a Photoshop interface with multiple panels. A white cat figurine sits on a red floral cushion in the foreground. A keyboard and mouse are also visible on the desk. A semi-transparent dark grey box with rounded corners is overlaid on the image, containing white text.
